

# DR. PRICE'S CREAM BAKING POWDER

## A Pure Cream of Tartar Powder

Dr. Wm. Sedgwick Saunders, Medical Officer of Health of the City of London, Eng., was good enough to say that a long and universal experience has proved a cream of tartar powder the most efficient, safe and economical, making food which could not be deleterious to the most delicate stomach.

*In England the sale of baking powder containing alum is absolutely prohibited.*

WHEN BUYING BAKING POWDER, READ THE LABEL.

## TODAY'S LIVE NEWS OF SUNSHINE STATE ORDER TO ESTABLISH COURT OF INDIAN AFFAIRS IN EVERY PUEBLO IN STATE

(By Leased Wire to Evening Herald.)

Santa Fe, N. M., June 2.—As a further step toward eliminating the state courts from Pueblo Indian affairs, the Indian bureau at Washington today wired Superintendent H. F. Coggeshall or the local United States Indian offices to at once appoint an Indian court to consist of three judges, in each of the six villages under his supervision. The functions of the Indian courts will be similar to those of a Justice of the peace, his decisions subject to the approval of the Indian agent with appeal to the Indian Bureau. It will be known as the "court of Indian offenses," with jurisdiction over the Pueblo lands and their Indian inhabitants. It is understood a similar court will be established at each agency in the state.

GEORGE T. HULL, District Agent, DENVER, COLORADO

to approve the bond of Julian Salas as Torrance county clerk as a successor to Atilio Gallegos, resigned.

The decision of Judge Medier was made here yesterday afternoon, although he received a telegram from County Commissioners Zamora and Sanchez that the will not recognize anyone but Reymundo Romero as county clerk in Torrance county. Salas was appointed clerk by the commissioners a short time ago not as the approval of his bond was not received they decided to appoint Romero, revoking the appointment of Salas.

Judge Medier holds that the county commissioners had no authority to revoke a previous appointment of a county clerk and accordingly approved the bond of Salas. It now appears that a quo warranto proceeding is the only remedy left to Romero to "quiet title" of the office.

Judge Medier said that the delay in his approval of the bond of Salas was due to his failure to get the title until now. The judge has been traveling on judicial business.

### ANDREWS WELL DOWN 1,650 FEET AND STILL IN TRENTON LIMESTONE

Carlsbad, N. M., June 1.—"We were down 1,650 feet when the drill stopped Saturday night," said Senator W. H. Andrews this evening. "The formation continues about the same Trenton limestone. I do not look for a change for another 150 feet at least." The formation so far looks encouraging. It is the usual thing that limestone overlies the oil bearing sand. Some of the visitors are inclined to be enthusiastic because they are "impressed" with a strong smell of gas that comes from the hole when the drill is taken up, but the men in charge seem to pay no attention to this, but are proceeding with the drilling in the most businesslike way.

The Southwestern Petroleum company is finding a different formation where T. A. Stancliff is drilling for this company west of town. They went into limestone practically at the start. The drill has been idle the past few days while broken drill stems are being repaired. These kind of accidents veteran drillers like Mr. Stancliff always expect. Drilling will begin again Monday or Tuesday. Charles A. Man, president of the company, is well pleased with the appearance of the formation so far.

### SETTLERS ENTITLED TO USE TIMBER TO VALUE OF \$50

Santa Fe, N. M., June 2.—The field division of the United States land office has sent out the following communication to the newspapers of the state which is of interest to settlers:

Santa Fe, N. M., June 2.  
Gentlemen:  
The following information is supplied to you for such news use as you may desire to make of it:

The act of congress of June 2, 1878 (20 Stat. 88), and March 2, 1881 (22 Stat. 1033), permit the use of timber from vacant, unreserved, mineral and non-mineral lands by citizens of the respective states for mining, manufacturing and other domestic purposes by complying with certain rules and regulations promulgated by the secretary of the interior.

Under these rules settlers are entitled to procure not exceeding \$50 worth of timber stumpage value, in any one calendar year, without the

necessity of filing application thereto, though in such cases notice of intention to procure should be mailed to this office, copies of forms of such notices being supplied by this office free of charge. In cases where more than \$50 worth of timber, stumpage value, is desired, proper application therefor should be made to this office.

Very respectfully,  
THEO. N. ESPE,  
Chief of Santa Fe Field Division.

## SILVER CITY GETS BIG STORY IN WORLD'S WORK

Article Tells of Trials of the Parcel Post Man on the Long Trail to the Mogollons.

### (Special Correspondence to the Herald)

Silver City, N. M., June 2.—A baby about five days old was found early Sunday morning on the road near the New Mexico Cottage sanatorium by a colored servant employed in one of the residences that adjoin the sanatorium property. The servant saw a bundle close by a gate and gave it a kick. Immediately she heard the cry of a child, and panic stricken, she rushed to the home of her employer and gave the alarm. The babe was wrapped in an old saddle blanket. Her clothes were of very poor material. After bathing the child and giving it a meal of Melton's Food it was turned over to the county health officer who placed it in the ladies' hospital. The authorities are making an effort to discover the parents.

### GRANT COUNTY DOCTORS HOLD ENTHUSIASTIC MEETING

The members of the Grant County Medical society are enthusiastic over the success of their last monthly meeting held at Fort Bayard. A prominent physician told your correspondent that it is very doubtful if any similar society, outside of the centers of medicine, could have a meeting equal to it, and he was quite sure the county societies of New York and Philadelphia with their abundance of clinical material, could not surpass it.

Dr. E. R. Carpenter of El Paso, Texas, read a wonderfully interesting paper on "A Demonstration of the Theory of Hearing," which he illustrated by the use of slides. Dr. David C. Twitchell, associate physician at the New Mexico Cottage sanatorium, presented a paper on tuberculin, describing the various kinds and giving the basis for the diagnostic and therapeutic use of tuberculin. Captain Calender, U. S. A., presented his paper, "Albumbinus Spurium in Tuberculosis." This was an exhaustive study of the subject and the literature bearing on it and made a fine impression on all present. All of the papers were thoroughly discussed.

## ABANDONED CHILD LEFT ON ROAD NEAR HOSPITAL

Parent who Deserted Tiny Babe Left it Conveniently Near Cottage Sanitarium at Silver City.

### ROBERTSON TESTIMONIALS

There are so many reasons why everyone should look to the blood for health that the action of S. S. S. as a purifier and preserver of the blood is unique. We give so much food, so much oxygen, so much water, all of which in right proportion maintain health. But the liver, kidneys, lungs, skin and bones must work in perfect harmonic to convert the intake and expel it after it has served its purpose of regenerating the tissues and cells of the body. And this process repeats itself every seven seconds throughout life. Now as it happens with most people, the body does not care for the waste and it remains a destructive influence to the system, causing rheumatism, boils, eruptions and a myriad of troubles recognized as the result of pollution.

Remarkable testimonial have been written that prove beyond question there is no blood disease but what can be cured by

## Grave Danger if Blood is Disordered

Little Causes Develop Worst Kind of Trouble--No Danger if Blood is Fortified.

The Blood of Purified With S. S. S. Will Resist All Germ Infection.

R. S. S. And in all those cases that were treated with mercury, iodides, arsenic, copper and other minerals with no permanent effect, the most astonishing recoveries have been made.

There is not a blood taint of any nature that can remain in a system fortified by this most wonderful remedy, for it is absolutely true that with the most delicate search, even in those with the most delicate stomach, there is no trace of any of the strong drugs has so weakened the digestive system that medicine can not be given. Get a \$1.00 bottle of S. S. S. at any drug store and thus be assured of a complete cure of your trouble.

Remarkable testimonial have been written that prove beyond question there is no blood disease but what can be cured by

### ASBESTOS COMPANY IS INCORPORATED TO WORK LAS VEGAS DEPOSITS

#### (Special Dispatch to Evening Herald)

Santa Fe, N. M., June 2.—The New Mexico Asbestos company filed articles of incorporation here today, with capital of \$100,000, and F. M. Lyons of Albuquerque and Charles B. Trammell and John A. Baker of Las Vegas as incorporators. The company is formed to develop and operate the asbestos deposits recently found near Las Vegas and said to be very extensive.

### H. B. CORNELL ALLOWED \$300 AS RECEIVER FOR PROPERTY IN A SUIT

The report of Harry B. Cornell, as receiver for property involved in the suit of Otto Dieckman, trustee, against the unknown heirs of John Langis et al was approved by Judge Reynolds in the district court today. It showed that this receiver had taken in \$1,414 in rents, and paid out for taxes, repairs, insurance and materials for repairs \$1,421.32. The expenditures left a balance of \$28.57, and the receiver was allowed \$300 by the court for his services, it being

shown that he had served for over two years.

In the matter of R. G. Balcom, plaintiff and appellee against Martin Hart as executrix of the estate of William Hart, deceased, final judgment was granted in favor of the latter and Balcom's claim was dismissed. He must pay the costs. George S. Klock is Mrs. Hart's attorney.

### COMMISSIONERS STILL HEAR TAX COMPLAINTS

More complaining taxpayers appeared before the county commissioners, who are sitting as a board of equalization, today in Assessor Fred C. Heyn's office. The crowd was not as great as of yesterday and the commissioners began to see their way out of a pile of work. They hoped to get through this afternoon, but they may have to hold another session tomorrow.

The commissioners have disposed of many cases, but numbers of others have been taken under advisement.

Edwin R. Omsted and Beatrice Whitney took out a mortgage license at the office of County Clerk A. B. Walker this afternoon.
